The First Day Of Summer

Screeching Weasel

seasons will change and so will you
i've seen the signs a million times before
you try so hard to keep your cool
what's the matter with today
you're always planning somethin
and that something's always twenty
years away
come on now it's the first day of summer
please don't let it slip by just try
to squeeze all of the life out of it
this is a summer day
but i thought that i heard you say
it's just another day watch it go by
the summer's starting so
why aren't you
we're getting older every day and
i can't stay here getting old
with you
did you ever notice
that the summer's almost gone just
when it starts
please don't stop
here comes summer
the summer's starting so
whey aren't you
we're getting older every day and
i can't stay here getting old
with you
don't stop
please don't stop
