

# Ups & Downs

## No Fuego

Temperatures rise right through the ceiling. My body went numb from the feeling. And branded on my skin is dedication to my friends, so sit back and listen. For everything weve felt, I believe theyre 1,000 better days. Weve been knocked down and pushed around. This is what weve learned to know. Gonna make it through this with my friends. Well always have a place to go. Im not done with this. I dont think Ill ever be, and if I will well I dont wanna know. Lived the highs, lived the lows and I wouldnt change it for the world. Its uncompromising and yet realizing that if I fall this is my net. And when I look out I see your smiling faces and it makes me feel like I am home. Weve been knocked down and pushed around. This is what weve learned to know. Gonna make it through this with my friends. Well always have a place to go.
