

# Yes I Am

## Demi Lovato

Sexy lady knows what she wants out of life,  
See she got her own means,  
Doing whatever she likes,

Feels good to have you,  
She don't need you, She can't depend on a man,  
After all that she's been through,  
She ain't running behind you,  
Trust me I know 'cause I am her.

In my guy (in my guy) , What I need (what I need),  
Right here (right here), To me (to me),  
I am (I am), Everything (everything),  
All that I need and I won't repeat it,  
I won't stop now,  
Got it all (got it all), figured out (figured out).

My guy (my guy), What I need (what I need),  
Right here (right here), Everything.  
I am.

Yes I am, yes I am (I am),  
Yes I am, yes I am.

So you can't deny that,  
She had the strength to survive,  
Through the good and the bad,  
She's having the time of her life,

Feels so good to have you,  
She don't need you,  
She can't depend on a man, After all that she's been through,  
She ain't running behind you,  
Trust me I know 'cause I am her.

In my guy (in my guy), What I need (what I need),  
Right here (right here), To me (to me),  
I am (I am), Everything (everything),  
All that I need and I won't repeat it,

I won't stop now (stop now),  
Got it all (got it all), figured out (figured out),  
My guy (my guy), What I need (what I need),  
Right here (right here), And everything,  
I am.

Yes I am, yes I am (I am).  
Yes I am, yes I am.

You are,  
If you are throw your hands up, (So put your hands up)  
If you are let me see your hands up.

In my guy (in my guy), What I need (what I need),  
Right here (right here), To me (to me),  
I am (I am), Everything (everything),  
All that I need and I won't repeat it,  
I won't (I won't), stop now (stop now),  
Got it all (got it all), figured out (figured out),  
My guy (my guy), What I need (what I need),  
Right here (right here), Everything.  
I am.

Yes I am, yes I am (I am).  
Yes I am, yes I am.

If you are throw your hands up,  
If you are let me see your hands up.
