

Pain Is A Close Up

Apollo 440

Pain is a close up
And happiness a long shot
Pain is a close up
And happiness a long shot Your consciousness is
The only censorship
Your consciousness is
The only censorship You wake up
You shut down
You wake up
You shut down Pain is a close up
And happiness a long shot
Pain is a close up
And happiness a long shot Love is a virus
It breaks your system from within
Love is a virus
It breaks your system from within Your consciousness is
The only censorship
Your consciousness is
The only censorship Time is a jet plane
My life is burning up
Time is a jet plane
My life is burning up Pain is a close up
And happiness a long shot
Pain is a close up
And happiness a long shot You wake up
You shut down
You wake up
You shut down Your consciousness is
The only censorship
Your consciousness is
The only censorship
