

Willpower

Jack Bruce

Such a lotta talk about willpower
Such a lotta talk about willpower
Ooh talkin', talkin', talkin' willpower
Desire, talkin', talkin', talkin', talkin', talkin' about willpower Tell the world how well it's workin'
Never say how much it's hurtin'
Easy sayin' what to do
Easy if it isn't you Willpower, what a lot of talk about it
Running head first down that slide
Burnin' up so bad inside
So much bullshit on the front
Give 'em more of what they want
