Scare Me

Kenny Chesney

I'm not afraid of lonely I've gotten good at being that Ain't seen nothing that could hold me Say goodbye and don't look backRunning, always ready Feel as strong and steadyBut you scare meTook a long walk after midnight Trying to make sense of it all Tried to catch a glimpse of my old life But your face was all I sawBlue eyes staring through me Baby, what are you doing to me? You scare me (Never felt this before It's all brand new to me Never known anyone)You scare me (I'm doing what I said I would never do Too late to stop it now)Knowing there's no turning back Knowing I don't want toBaby, you scare me (Never felt this before It's all brand new to me Never known anyone)You scare me (I'm doing what I said I would never do Too late to stop it now)Scare me, scare me Baby, you scare me Scare me
