

Can't Let a Woman

Ambrosia

Where do you think you're goin'?
Dressed up like some evening tramp?
What do you think you're doin'?

Well, you got them talkin' behind my backIt must be something I can't relate

It's enough to drive a man from his mind

Come on, get back home before it's too late

How could you up and just walk out of my life?I can't let a woman like you get to my head

I can't let a woman like you get to my headWhat do you think you're doin'?

Well, I told you not to leave anymore

Where do you think you're going?

Oh, come on, get your fingers off of that doorWell, it must be something I can't relate

It's enough to drive a man from his mind

So get back home before it's too late

How could you up and just walk out of my life?I can't let a woman like you get to my head, no

I can't let a woman like you get to my headWaited all my life

For someone like you

I've waited all my life

Is there something that I could doI can't let a woman like you get to my head, no

I can't let a woman like you get to my headI can't let a woman like you to [Incomprehensible] twice

[Incomprehensible]
