Necronomicon

Sacrifice

Advisory - the following lyrics contain explicit language:

Ignite the candles of hell burn to my coven's spell
Bound by human flesh recite the book of the dead
Necronomicon
Black forces open the grave death is now my killing slave
Rising souls of the damned hide in the pentagram
Necronomicon
Follow through the trees possessed souls lurk to kill
Raped you lie by the forces of hell released to die
I am the necromancer the dead eat your mind and soul
Maggots fill your eyes black magic takes your life
Necronomicon
To the gates of hell I return hades fires once again burn
Coven rejoices rites are read back to hell return the evil dead
