No Doubt About It

Hot Chocolate

If someone tells you there's no other form of life
And you believe in that too.
I'm gonna tell you 'bout the other night
I swear that true.
A cloud of white and gren and flying ships I've never seen
Came into my view.
Was I frighted
was I scared
Was I thrown into confusion.
As they glided down so silently
It wasn't an illusion.
Oh
no doubt about it.
Oh
no.
No doubt about it.
What kind of magnetism kept me in this place
Was it out of my control?
What was this ship from out of space?
What was the creature that appeared before my eyes?

Was it good
was it evil
On this ship from other skies?
I was frighted
I was scared
I was thrown into confusion.
As they stood right there in front of me
What can they be
no illusion.
Oh
no doubt about it.
Oh
no.
No doubt about it.
Stood right there in front of me
What can they be
no illusion.
Oh

no doubt about it.
Oh
no.
No doubt about it
...
