# Hurricane Streets

## Hey Monday

The storm is rushing on me
Here's the flood flash
I feel so locked and loaded
Let me out, let me out
Wake up in a wasteland
Where the trees are crashing fast
Make or break or the road explodes
Get out, get out of this town
Live faster, live stronger
Let us speed up or get blown over
Time's wasting, how much longer
Before I get myself free
Of these hurricane streets?
Headed for disaster
Way beyond the fear
In the rear view, watch it all
Just disappear, disappear
I don't care where I'm headed
Anywhere but here
Won't waste my life
Can't waste another night
In this town, this town
Live faster, live stronger
Let us speed up or get blown over
Time's wasting, how much longer
Before I get myself free
Of these hurricane?
Leaves are blowing down the streets
Wind crawling up our knees
Somebody get the keys
Rain is flowing from the sky
But no fear in our eyes, we're ready to fly
Live faster, live stronger
Let us speed up or get blown over
Time's wasting, how much longer
Before I get myself free
Of these hurricane streets?
Live faster, live stronger
Let us speed up or get blown over

Time's wasting, how much longer
Before I get myself free
Of these hurricane streets?
