

Shadow Dancer

UFO

I am back in the circus oh hustling days
I look at the world in a rose colored haze
Cramp tight bodies jive and girate
Oh bump and grind to the rhythm of fateWe spun in the sunlight
Of our long summers day
We kissed the heavens now
It's still a beautiful dayBack on my wall shadow dancer
My hammer headed friends and the puppet girls call
Back on my wall shadow dancer
The dance is coming back, back in my worldMarried a model from old Hong Kong
Came to England just a singing my song
This love in a letter sure didn't last
Stamped her passport never saw her arseWe spun in the sunlight
Of our long summers day
We kissed the heavens now
It's still a beautiful day, yeahBack on my wall shadow dancer
My hammer headed friends and the puppet girls call
Back on my wall shadow dancer
The dance is coming back, back in my worldUnlucky in life, unlucky in love
No special blessing from above
Fools and horses come to my door, hey
I am the stranger who sleeps on the floorWe spun in the sunlight
Of our long summers day, hey
We kissed the heavens now
It's still a beautiful dayBack on my wall shadow dancer
My hammer headed friends and the puppet girls call
Back on my wall shadow dancer
The dance is coming back, back in my worldBack on my wall shadow dancer
My hammer headed friends and the puppet girls call
Back on my wall shadow dancer
The dance is coming back, back in my world
