Now tip toe Don't take nobody with you to my house

If anybody see you then our secret gon' be out

Don't let nobody catch you by my crib

I don't want them knowin' you be goin' where I live Just make sure you leave before the mornin'

Break of dawn

I'll see you later

Make sure you don't wake the neighbors See that too many people wanna know

Who that who that who that

So be quiet when you go Now tip toe

Now tip toe Boy check it out, what we got going, boy you know

The minute you start talking, I'mma have to let you go

('Cause I don't want my business to be at my neighbor's door

And I don't want my business on 'The Wendy Williams Show')

I can tell that you're losing patience looking at your face

So get up out this club and just meet me at my place

('Cause I don't want my business to be at my neighbor's door

And I don't want my business on 'The Wendy Williams Show')Don't take nobody with you to my house

If anybody see you then our secret gon' be out

Don't let nobody catch you by my crib

I don't want them knowin' you be goin' where I liveJust make sure you leave before the mornin'

Want nobody know that this case

You're sending me the signal like it's time to get away

(I like how you come through and I ain't gotta say a thing

You sticking to these rules, you know how to play this game)

I've been keeping you around for a reason

And you look good and you give me what I needed

(I like how you come through and I ain't gotta say a thing

You sticking to these rules, you know how to play this game)Don't take nobody with you to my house

If anybody see you then our secret gon' be out

Don't let nobody catch you by my crib

I don't want them knowin' you be goin' where I liveJust make sure leave before the mornin'
