

# The Comfort Zone

[Vanessa Williams](#)

Where do you go  
When there's a need to be loved like a need to be loved  
Oh, I'll let you know just what to do and where to go  
Hey, welcome to the comfort zone  
When you need to be loved like you need to be  
Welcome to the comfort zone  
Do whatever feels right and turns you on  
After a hard day at work, there's one thing to be certain of  
This ol' familiar love, oh, it's not unusual to find that it's sensual  
Oh, it's all you need to let go  
There's no need to try or compromise  
Or settle for another outside of my love  
The thing to do when you get through  
Heed the message, seek the comfort of my zone  
When you need to be loved like you need to be  
Welcome to the comfort zone  
Do whatever feels right and turns you on  
Hey hey, welcome to the comfort zone  
Ooh, when you need to be loved like you need to be  
Welcome to the comfort zone  
'Cause no one ever has to know what turns you on  
And on and on and on and on and on  
Hey hey, welcome to the comfort zone  
When you need to be loved like you need to be  
Welcome to the comfort zone  
Do whatever feels right and turns you on  
Hey hey, welcome to the comfort zone  
When you need to be loved like you need to be  
Welcome to the comfort zone  
No one ever has to know what turns you on  
Hey, let me make you comfortable  
Let me take control and give your mind a break from the day you made  
Let's turn the lights down low, then oh, the rest you know  
I'll be here for you 'cause you just stepped into the comfort zone
