

Four's a Traffic Jam

Peaches & Herb

You know baby, when I first saw you
I knew I had to have you
That was my first mistake
Cause you know
When I finally did have you in my arms
Truth is, I been thinking
Now how am I gonna get out of this mess
Why just last night
My ole lady was checking out her wedding dress
And talking about we don't do it like we used to
And crying, crying till we both started crying
And remembering, it's us till death do us part
And when I first saw you I said
Now he's together
I closed my eyes to the truth
And dived in head first
But all came down on me hard
When I saw my baby's eyes asking
Mama where you going
And me lying and saying
To my girlfriends
Well that's the baby who needs my loving
And that's who's gonna get it
You got kids and so do I
We'd both hate if we made them cry
This foolish game is bound to hurt the ones we love
And that's who I'm thinking of
It was destined from the start
When we met we knew we'd have to part
It's no fun to be the guilty one
Like this
We've got to give it up
Because three's a crowd, four's a traffic jam
I'm backing up cause I'm happy where I am, yeah
Three's a crowd, four's a traffic jam
I hit the breaks to save a little lamb, oh
Crossin town, watered down
So much confusion in that
big old lie
Our story ends without kissing
Fair de well
And a promise not to tell
Because; Three's a crowd, four's a traffic jam
I'm backing up cause I'm happy where I am, yeah
Three's a crowd, four's a traffic jam
I hit the breaks to save a little lamb
Four's a traffic jam, glad you understand
Now baby, darling
Four's a traffic jam, glad you understand
Three's a crowd, ba ba baby, four's a traffic jam
I'm glad you understand my sweet baby
Three's a crowd, I'll never forget, four's a traffic jam
The very day we met
When I, three's a crowd, finally had you in my arms, four's a traffic jam

It felt so right but I knew it was wrong
My darling, darling, darling
Three's a crowd, I'm gonna miss ya, four's a
traffic jam
Oh Three's a crowd, just keep on walking, four's a traffic jam
