Fall In

Cloud Nothings

fall in fall in fall in
fall in fall in fall in
fall in fall in fall in
fall in fall in fall in
permission to behave, you know you're not the same
you wait for days and days, to hear him say your name
i want to be like you, i think you know the truth
i want to be like you, show me what i should do
nothing left for you to use, nothing left for you to use
nothing left for you to use, nothing left.
fall in fall in fall in

fall in fall in fall in
fall in fall in fall in
fall in fall in fall in
its such an awful game, the one i play with you
we walk in to the shade, try to escape the pain
they don't believe in me, why should i agree
they don't believe in me, i should cooperate
nothing left for you to use, nothing left for you to use
nothing left for you to use, nothing left.
fall in fall in fall in
fall in fall in fall in
fall in fall in fall in
fall in fall in fall in
