

# Maybe Not

## Cat Power

There's a dream that I see,  
I pray it can be  
Look across the land,  
Shape this land  
A wish or a command Dream that I see,  
Don't kill it, it's free  
You're just human,  
You get what you can  
We all do what we can  
So we can do just one more thing We can all be free  
Maybe not in words  
Maybe not with a look  
But with your mind Listen to me,  
Don't walk that street  
There's always an end to it  
Come and be free,  
You know who I am  
We're just living people  
We won't have a thing,  
So we got nothing to lose We can all be free  
Maybe not with words  
Maybe not with a look  
But with your mind You've got to choose,  
A wish or command  
The turn of the tide is withering thee  
Remember one thing,  
The dream you can see  
Pray it to be,  
Shape this land We all do what we can  
So we can do just one more thing  
We won't have a thing  
So we've got nothing to lose We can all be free  
Maybe not with words  
Maybe not with a look  
But with your mind  
But with your mind
