

Precious Times

Beverly McClellan

My head is spinning ninety miles an hour
And my body, my body just can't keep up
So many things are running through my mind
I wish I could just tell them to shut up

(Chorus)

But, oh, these precious times
But, oh, these precious times
No, no, no you can't replace them
You can't replace these precious times
No, you can't replace them
No, you can't replace them
These precious times
(Instrumental)

And what would be the matter
If nothing were at hand
Could we spin away on a rainbow
Or catch each other's hand

And if I covered you up with questions
Just to ask them all again
No, we can't really find the seam of things
Or where it all began

(Chorus)â€|â€|â€|
