Goin' Down Slow

Eric Bibb

Well, it's a quarter a two looking at you
And going down, going down slowWell, it's a quarter a two, I'm looking at you
And going down, going down slowTV went off about one, we have only begun
And I know that
The Wednesday may come
But I have no intention of going homeWell, it's a quarter a three digging on me
We're going down, going down slowCould stay here all night
They claim you're outta sight
Please get up and turn out the light
There ain't nothing better than the middle of the nightWhen it's a quarter a four, you're begging for more
And then going down, going down slowYou're going down, going down slow
Going down, going down slow
You're going down, going down slow
