

# Let It Go

[Matt Morris](#)

please lay down next to me  
next to me  
hear me loud  
let me speak  
let me speak  
please, let it fall  
let it fade  
let it go  
please, let it fall  
let it fade away  
let it go  
words that i didnt mean  
didnt mean

made you cry quietly...quietly  
so please, let it fall  
let it fade  
let it go  
please, let it fall  
let it fade away  
let it go  
please, let it fall  
let it fade  
let it go  
please, let it fall  
let it fade away  
let it go
