

Alive Alone

The Chemical Brothers

No way of knowing if she's ever coming back
No way of knowing if I care or not
No way of knowing if she's right or if she's wrong
No way of knowing if I'll carry on

[Chorus: (x2)]
And I'm alive
And I'm alone
And I've never wanted to be either of those

And she shines
And she shines for me
She shines for me...

No way of knowing if she's ever coming back
No way of knowing if I care or not
No way of knowing if she's right or if she's wrong
No way of knowing if I'll carry on

And she shines
And she shines for me
She shines for me....

[Chorus x4]

And she shines
And she shines for me
She shines for me...

And she shines
And she shines for me
She shines for me...
