

# Staying Power

Barry White

I'm not goin' nowhere  
I'm stayin', baby I'm stayin'  
You know why?  
I've got staying powerBaby, I've made plans  
In a fancy restaurant where we can dance  
Put on my favorite dress  
You know the one that oozes sexinessTonight when we make love  
I'm goin' to work your body with my tongue  
Oh baby, my mission's clear  
There's more than love that keeps you hereI've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's overSlow down, don't heat so fast  
Anticipation makes a good thing last  
Tease me with your emotions  
Soon we'll share nature's body lotionAre you ready to free?  
Girl you know you got just what I need  
Oh baby, my mission's clear  
It's more than love that keeps you hereI've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back againNo, baby I'm not going anywhere  
No, no, no I'm not going anywhere  
I'll be here  
I'll be here  
For years and yearsTonight when we make love  
I'm going to work your body with my tongue  
Oh baby my mission's clear  
There's more than love that keeps you hereI've got staying power  
Just when you think it's over

I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power  
Just when you think it's over  
I'll come right back again I've got staying power  
Just when you think it's over  
I'll come right back again  
I've got staying power
