Fight the Oppression

Running Wild

Atomic warheads, weapons of all kind
Invented to destroy, to find their victims, to grind
Mendacious rulers, ministers of defense
Leading you to war, can't you see where it all, all ends?Total destruction, adversary's death
Contamination, epidemics and fear
Bloodshed goes on till the very last breath
No remedy if blood feeds the gearFight the oppression now
Fight the oppression down
Fight the oppression now
Fight the oppression downMegalomania, ruler's disease
Deceit and treason, your life is what they seize
All liberty is dying, to reign is the sense
Leading you to war, can't you see where it all, all ends?Total destruction, adversary's death
Contamination, epidemics and fear
Bloodshed goes on till the very last breath
No remedy if blood feeds the gearFight the oppression now
Fight the oppression down
Fight the oppression now
Fight the oppression downLet's goTotal destruction, adversary's death
Contamination, epidemics and fear
Bloodshed goes on till the very last breath
No remedy if blood feeds the gearFight the oppression now
Fight the oppression down
Fight the oppression now
Fight the oppression downFight now
