

# That's Gonna Leave a Mark

## Aaron Watson

First kiss, I thought I died and gone to heaven  
In the parking lot of that old 7/11  
I filled up a truck  
I went into pay  
When I walked out  
She was with him smiling  
As she drove away

I know that's gonna leave a mark  
Just like a tattoo on my heart  
My little brunette wrecking ball  
With a sexy southern draw  
Is gonna tear my world apart

And I know just like a moth draw to a flame  
I'll come running when she whispers my name  
And like a tattoo on my heart  
I know that's gonna leave a mark

If you play with fire  
You're bound to get burned  
You would think by now  
That I would've learned  
But she's looking so hot  
So what can I say  
My mama said don't  
But I did it anyway

Oh, tug on 'em heartstrings now

I wish she didn't look so dang good  
I wish she wouldn't smile at me that way  
There's an exit light shining brighter than the sun  
Like a sign from above telling me to run away

And like a tattoo on my heart  
I know she's gonna leave a mark
