Do This

Pepper

Why you wanna leave me in the dark
Chewin on the tree's and spittin out the
Yell at me at me and it feels so good
wanna run with you like I should it be the way you left me back there I was in agony
I call you back, nothing to say, baby why you wanna leave me this way so far I try to talk to you in my car but when I do it's hard to explain it feels me up with so much pain.
Baby why you wanna do this to me [X8]
I said do me a little favor and hit me on my pager but for now I know its gonna be a see you alligator there I go with all I knew hopin that your missin my lovin' too. Don't say screw you, you know I do love you and that I got to be true because I go down with the dream i'm leavin all the originality you know I say, I believe, I believe, I believe in you and me. I believe, I believe in you and me
