

# Playtime

## Khalil

JB

Khalil Playtime is over (say what), over (say what)  
I got no time to play no games with you  
Playtime is over, over  
I got no time to play no games with you, with you No more playing games, uh  
No more arguing, asking me where I'm gonna be  
Such a waste of time, uh  
There's no need to fight (there's no need to fight) Â oh  
I want to spend that time laughing out loud  
'Cause there ain't really no time for arguing no Playtime is over, over  
I got no time to play no games with you Â  
(I got no time to play no games with you)  
Playtime is over, over, over  
I got no time to play no games with you  
(I got no time to play no games) I've been wantin' to move on  
So don't push me away, to get to my heart  
Don't play no games (don't play no games)  
I got no time to play no games with you I won't say no names, I won't say no names  
But you're playing games  
See lately baby girl it just ain't been the same (oh nah)  
Just saying what's on my mind, I hope you feel my pain (feel my pain)  
Well girl I guess it's just a part of love  
But I hope you know that you're the one I'm dreaming of Playtime is over, over (say what) (over)  
I got no time to play no games with you  
Playtime is over, over  
I got no time to play no games with you I've been wantin' to move on  
So don't push me away, to get to my heart  
Don't play no games Â  
Playtime is over, over (over)  
I got no time to play no games with you, games with you
