

Black Cats

[Bob Dylan](#)

Shadowlike they haunt me at night
Horrible dreams to grab my sleep
Whatever I do, wherever I go
They're always near beside
If these turn up there ain't no joy
All I can's destroy
Nothing works to scare 'em away [Chorus:]
Black cats, black cats
Always scary, how do I lose em'
Black cats, black cats
An evil omen - Black cats
Stumbling through the streets at night
I was overcome again by this bothersome plague
It didn't come off it's over now
This was the final show
If these turn up there ain't no joy
All I can's destroy
If these turn up there ain't no joy
Nothing works to scare 'em away
