## The Corner

## **Rodney Atkins**

First time I left home

Here's the words that my dad said to me

He said sit down son, don't take curves

Doin' ninety miles an hour

Or you will end up upside downIf you really like her, don't forget the flowers

The first time and every time you take her out

I've been around the block

And I know what's 'round the cornerChoose your words wisely

'Cause you can't take 'em back

Once they've broken someone's heart

Just because your friend does

Doesn't mean you have to

It's what sets the two of you apart

I've been around the block

And I know what's 'round the cornerDon't pretend to know it all

When you don't know a thing

And know your way around it

Before you throw your hat into the rain

And don't commit to somethin'

If you can't follow through

And your past will always catch up with you

I've been around the block

And I know what's 'round the cornerAlways call your mama

When you say you gonna

While she's still here for you to call

And don't forget the man upstairs

In your darkest hour

He's a pick me up every time you fall

I've been around the block

And I know what's 'round the cornerI've been around the block

And I know what's 'round the corner

I'm in your corner

I've been around the block

Enough to know what's 'round the corner

What's around the corner

What's around the corner
