

Tip Toe

Tamar Braxton

Now tip toe Now tip toe Now tip toe
Now tip toe Now tip toe Now tip toe ...Don't tell nobody what you do in my house
If anybody see you then our secret gon' be out
Don't let nobody get you by my crib
I don't want them knowing, you be going where I liveCause we should live for the moment
Break it down, I see you lately
Bet you don't want the neighboursSee that too many people wanna know
Who dat who dat who dat, all in choir when you goNow tip toe Now tip toe Now tip toe
Now tip toe Now tip toe Now tip toe ...[Verse #1]
Boy check it out, what we got going, boy you know
The minute you start talking, I'mma have to let you go
Cause I'm on my business, could be at my neighbour's door
And I don't want my business on 'The Wendy Williams Show'I could you tell that losing patience
Looking at your face, so get up in this club and just meet me at my place[Pre-Hook]
Cause I'm on my business, could be at my neighbour's door
And I don't want my business on 'The Wendy Williams Show'Don't tell nobody what you do in my house
If anybody see you then our secret gon' be out
Don't let nobody get you by my crib
I don't want them knowing, you be going where I liveCause we should live for the moment
Break it down, I see you lately
Bet you don't want the neighboursSee that too many people wanna know
Who dat who dat who dat, all in choir when you goNow tip toe Now tip toe Now tip toe
Now tip toe Now tip toe Now tip toe ...Ooh I love when nobody noted this the case
They sending me the signal like it's time to get away
I like how you come through it
My God I see a thing
You sticking to these rules, you know how to play this game
I've getting you around for a reason
And you're little good, and you give me what I'm needing
I like how you come through it
My God I see a thing
You sticking to these rules, you know how to play this gameOn't tell nobody what you do in my house
If anybody see you then our secret gon' be out
Don't let nobody get you by my crib
I don't want them knowing, you be going where I liveCause we should live for the moment
Break it down, I see you lately
Bet you don't want the neighboursSee that too many people wanna know
Who dat who dat who dat, all in choir when you goNow tip toe Now tip toe Now tip toe
Now tip toe Now tip toe Now tip toe ...YEAH
