

Fall Forever

Honeyblood

Fall forever
Straight into your heart
It's a parachute that slips
Sticking back together
I know you can do two
It's a lie that And I never knew
Your eyes were so blue
Is this not what we're supposed to do
And I never knew
Your eyes were so blue
Is this not what we're supposed to do
Fall forever
Straight into your heart
I can feel it punch now
Lamb to the slaughter
I plan my own bloodbath
Scratching on my vein And I never knew
Your eyes were so blue
Is this not what we're supposed to do
And I never knew
Your eyes were so blue
Is this not what we're supposed to do Fall forever
Straight into your heart
Sinking in like a Fall forever
Every rose-tinted sky
Reminds me of you and I
I
And I never knew
Your eyes were so blue
Is this not what we're supposed to do
And I never knew
Your eyes were so blue
Is this not what we're supposed to do
