

Meet Me On Main Street

The Push Stars

There must be some reason why she's letting me go
She says it's the season but I know she knows
That there's spaces between us where no river flows
I wish I could erase her like a change of my clothes
And in an instant this all could end
So let's drink to good fortune
Here's to my friends
'Cause friendships worth much more than the money we spend
And money's worth nothing
Let's not pretend
Meet me on main street
Ducking from the police
Strange the pain is so sweet
It's complete
It's complete
It's complete
I put on my red coat and walk out the door
I'm not the same person that I was before
And yes I feel bitter, yes I feel sore
But she was just a young kid who drifted ashore
Meet me on main street
Ducking from the police
Strange the pain is so sweet
It's complete
It's complete
It's complete
Meet me on main street
Ducking from the police
Strange the pain is so sweet
It's complete
It's complete
It's complete
