Romeo's Dead

Rough Cutt

Love (8x's)
Come out and play, you hide I'll find you
"cause anyway, my love will track you - down
Like in the play, two lovers wrapped around and around
History went upside down
Love will save the day
No matter what you do it's gonna find you
And destiny will bring you back to me
This time around it won't be a tragedy
We are free
Romeo's dead, he wasn't using his head
That little voice in his heart went down in history
Now Romeo's dead, yes, he was looking ahead

He must've known from the start, he read the book of love(of love)
So many ways to live a moment
Come through my days, my one and only, Romeo's dead
The kind of thing doesn't ever repeat, we can love eternally
Listen to your heart it knows you better then you know your own self
Just like the boy who kept on askin' why
Oh, what so greater the meanin' of a rose than the meanin' of a name
Romeo's dead, he wasn't using his head
That little voice in his heart went down in history
Now Romeo's dead, yes, he was looking ahead
He must've known from the start, he read the book of love(of love)
(Repeat)
Love, love, love, love
