Knees

Hot Rod Circuit

You can wake me
When we get there
Cause I don't care
If I see the daylight
And I'd run there
But my knees are weak
And my body needs
To be close to you
Sometime soonAnd I don't ever need
You to yell at me
The temperature will rise
98 degrees
And I don't ever need
You to yell at me
The temperature will rise
And I can barely breathe
