

# The Desert Song

## Wilderado

My best friend is in the desert  
With a girl alone.  
He'll give her his favorite sweater,  
Now she's warming up.  
Now she's warming up.

????  
This old love, oh no.  
It said I'd find a home,  
It said I'd find a way out.  
Listen up, hear that shout,  
This darling heart of mine (?)  
Should've found a way out,  
Should've found a way out.

Smoke in the house as the fire dies (?)  
That's when your girl gets cold.  
Should've found a way out,  
Should've found a way out.  
After all the long, open road,  
My best friend is in the desert,  
With a girl alone.  
He'll give her his favorite sweater,  
Now she's warming up.  
Now she's warming up.
