

# The Only Way to Be

[John Taylor](#)

Hello, everybody, guess what I just found  
Another wannabe, somebody  
Gonna sell their body, pound for pound  
Gonna be a big star, if they can get the chance  
But it takes more than talent in this high priced world  
If you want a little song and dance  
Do you like what you see? To live this life of luxury  
No cares, no dignity, it's all about the money  
It's the only way to be  
He's another person who's a little worse for wear  
Tried to live that life so fast, tried to live without a care  
But fame can be a fickle friend who makes you feel quite tall  
When your empire starts to crumble, it can push you for a fall  
Do you like what you see? To live this life of luxury  
No friends, just enemies, it's all about the money  
It's the perfect way to be, the perfect way to be  
This is what you wanted and everything you need  
Then be quite prepared, my friend, for the life you choose to lead  
'Cuz fame has many faces for each of us to see  
Bu the wise man is the one who knows that you should never believe  
Do you like what you see? To live this life of luxury  
No cares, no dignity, it's all about the money  
It's the only way to be
