

Sexy Ladies

Superfruit

Oh baby, hey! Spend three hours on your hair (For what?)

But he don't notice, he don't care

Goddamn, you looking good

He don't appreciate ya' like a real man should All my independent ladies, all my independent fellas

I'm just here to make your ex-man jealous

Dance the night away with me I can keep you warm

Be the candy on your arm

So let's take a shot, or two

Dance the night away with you Single ladies, got no ring on your hand

Baby, I'll be your stand-in man for tonight

Sexy ladies, no, I ain't on your team

But you gonna be my queen for tonight

Oh, I'll be sleeping in your bed

Watching old re-runs of Friends

No, I won't ever make a move on you, no

But I heard your brother's pretty cute All my independent ladies, all my independent fellas

I'm just here to make your ex man jealous

Dance the night away with me I can keep you warm

Be the candy on your arm

So let's take a shot, or two

Dance the night away with you Single ladies, got no ring on your hand

Baby, I'll be your stand-in man for tonight

Sexy ladies, no, I ain't on your team

But you gonna be my queen for tonight

All my ladies, all my handsome men

If you out here single as Hell, just raise your hands

You're amazing, you're a perfect ten

And if you out here single as Hell, just raise your hands All my independent ladies, all my independent fellas

I'm just here to make your ex-man jealous

Dance the night away with me I can keep you warm

Be the candy on your arm

So let's take a shot, or two

Dance the night away with you Single ladies, got no ring on your hand

Baby, I'll be your stand-in man for tonight

Sexy ladies, no, I ain't on your team

But you gonna be my queen for tonight Shout out to my sexy ladies

Oh, baby
