[Verse 1]
I got short comings, we got more coming
What was in that shot cause I need more of it
Hit the ground runnin, drop it down for me
Couple thou on it, I might wyl' on it
Young nigga act a fool but he talented
And the love and the work it's hard to balance them
All the time that I lost tryna salvage it
Man these niggas lost they swag that's some tragic shit
I'm a prince come smoke in one of my palaces
Go together like Pusha T and Malice did
Nah I don't love her
I was with the homies cause the homies will come first
You know how it is
Dabbin too much call me wax payne
Her dad famous yo I only know her last name
And all these niggas on the bandwagon mad fake
You get the message, I learned my lesson[Hook]
Like this, like this, like this like this like this
Ohhhhh
I wish, but I never thought I'd get it like this

I wish, but I never thought I'd do it like this[Verse 2]
Disrespected, so neglectful
Kid from the uptown where we disrespectful
I smoke weed all the time get forgetful
Stay with me for the night I'll be gentle
And I tend to smash girls who don't give a fuck
And drink twenty dollar vodka and red bulls
And she gotta a lot of baggage she ain't get to
And she say she got some problems she gon' get through

Well I'm like we all got our issues
Stay up all night smoke weed watch visuals
Thinking too much make it big when it's little
I'm the realest nigga out girl it's simple
You got questions, I got the answers
Drunk at the club spillin whiskey on the dancers
I need a purpose, she need a surface
Catch a car to the crib girl it's urgent[Hook]
