

Until I Fall Away

Gin Blossoms

I want to tell if I am or am not myself
It's hard to know, how far or if at all could go?
I've waited far too long
For somethin' I forgot was wrong I don't know all the answers
I think that I'll find
Or have it within the time
But it's all that I'll have in mind Until' I fall away
I won't keep you waiting long
Until' I fall away
I don't know what to do anymore
Until' I fall away My fear pretend that I'll never be in love again
It's real to me but not like these fools
And not like this scene
I won't find or have it within the time If it's all rusted and fade
In the spot where we fell
Where I thought I'd left behind
It's loose now but we could try Until' I fall away
I won't keep you waiting long
Until' I fall away
I don't know what to do anymore
Until' I fall away When there's no good answers
And no new questions
Another personal disaster
There's nowhere to go but down Until' I fall away
I won't keep you waiting long
Until' I fall away
I don't know what to do anymore
Until' I fall away Until' I fall away
Until' I fall away
Until' I fall away
