If We Unite

Randy

Vaya con dios
Punk rock amigos
I see the dreams glow in your eyes
I see lovers down by the coal mine
I see an empty so called paradise
I see the sun, I see the skyline
I see the sun, I see the light
Let's honour those who died for freedom
Who died struggeling in the fight
Industrial workers of the world, Joe Hill
The days of ?39 when time stod still
The anarchists, the bolsjeviks, killed
In kronstadtIf we unite we can take them
Grab them hard and then shake them
If we unite we can break them
Oh baby! wouldn't that be nice - wouldn't that be niceVaya con dios
Punk rock amigos
Oh my loved one my heart of gold
I've seen you walking through arctic winters
Somehow your skin never gets cold
Let's honour those who died for freedom
Who died for trying, who died for life
Who died for living, who died for dying
Who died for trying to organize
Look ma, look what they've done
The sun over Kurdistan is gone
And there's someone up there right now
Taking down the starsIf we unite we can take them
Grab them hard and then shake them
If we unite we can take them
Oh baby! wouldn't that be nice - wouldn't that be niceVaya con dios
Senoritas
May this system come to an end
That turns the people 'gainst each other
Brother against brother and friend against friend
They're leaving this town tonight
7:40 on a ray of light
I dreamed I saw you standing next to Angela Davis, babyIf we unite we can take them
Grab them hard and then shake them

If we unite we can break them
Oh wouldn't that be nice - wouldn't that be niceIf we unite we can take them
Grab them hard and then shake them
If we unite we can break them
Oh wouldn't that be nice - wouldn't that be nice
