Something Crazy

Lady Gaga

Wait, I think it's time Your fire's lit and so is mine Go turn out the light Don't be afraid, tonight's the night And I won't, I won't try to change you But I will, I will if I want to Yeah, it always brings me down When you're not around I still need you Oh, You do something for me baby I cannot control it, lately You do something for me Oh, You do something crazy to me I cannot control it, baby You do something for me And I feel so down When you're not around Boy, we're almost there I'll lay your clothes around my chair Pull the shades down low We're both ready to lose control And I won't, I won't try to tame you But I will, I will if you want to Yeah it always brings me down

When you're not around
I still need you
Oh, You do something for me baby
I cannot control it, lately
You do something for me
Oh, You do something crazy to me
I cannot control it, baby
You do something for me
And I feel so down
When you're not around
And I won't, I won't try to tame you
But I will, I will if you want to
Yeah it always brings me down
When you're not around

I still need you
Oh, You do something for me baby
I cannot control it lately
You do something for me
Oh, You do something for me baby
I cannot control it lately
You do something for me
Oh, You do something for me
I cannot control it, baby
La la la la la la la
You always bring me down
