Bumpy Ride

Omnitica

Love it when you let go
Love it when you let go
Love it when you let go
When you let go, let go
How does it feel
To spit out sunny skies?
And do you believe it's for real
That you've always got it right?
When the words you had explode
And you swallow them up whole
No you gotta let go, let go
You'll love it when you let go, let go, let go
It's gonna be a bumpy ride
But it sure beats standing still
I know we can work it out
And I've no doubt that we will
When it hurts more than it shows
It's not the easiest of roads
No, it's never black and white
And you can keep your happy life
Isn't it hard
Making it look so easy?
And you can never drop your guard
'Cause you're afraid of what you'll see
When the words to that affect
Have no effect on you at all
But you gotta let go, let go
You'll love it when you let go, let go, let go
It's gonna be a bumpy ride
But it sure beats standing still
I know we can work it out
And I've no doubt that we will
When it hurts more than it shows
It's not the easiest of roads
No, it's never black and white
And you can keep your happy life
If only you could let go
You'd love it if you let go
Ooh, if only you could let go

If only you could let go, let go, let it go
It's gonna be a bumpy ride
But it sure beats standing still
I know we can work it out
And I've no doubt that we will
When it hurts more than it shows
It's not the easiest of roads
No, it's never black and white
And you can keep your happy life
It's gonna be a bumpy ride
But it sure beats standing still
I know we can work it out
And I've no doubt that we will
When it hurts more than it shows
It's not the easiest of roads
No, it's never black and white
And you can keep your happy life
Love it when you let go
Love it when you let go
If only you could let go
And only you could let go
If only you could let go
If only you could let go
If only you could let go
