

Keep It Trill

Kirko Bangz

I just wanna (I just wanna)
I just wanna (I just wanna)
Lay lay down (lay down) I'm doing things I never did before (did before)
Flippin' on my pimpin' (pimpin')
You're hearing things you never heard before,
But I say girl, you trippin'
You know I right here with all of my niggas baby
We ain't doin' no trippin' baby
So, why you tryna play me?
'Cause if you read between the lines
Your past is bad as mine.
So, baby let's keep it trill. Now girl I know you got me (got me)
You know I got you too (got you too)
Them other women they be bopping you (bopping you)
But girl I'm feeling you, baby
I know you doubt me
Hatin' ass nigga talkin' bout me
Everywhere you go, there's another hoe
Like how she know she abide me
I know you doubt me
But just to keep it trill
I heard about you things
So baby girl let's keep it real. Uhm, these two women looking real fine,
And I can have them to myself.
The blonde girl is blowing up my line,
But, she talking to herself
She say
You can be running streets with your thugs
I'll be waiting for you
Until you get through
But you don't say it if you ain't about it baby Now girl I know you got me (got me)
You know I got you too (got you too)
Them other women they be bopping you (bopping you)
But girl I'm feeling you, baby
I know you doubt me
Hatin' ass nigga talkin' bout me
Everywhere you go, there's another hoe
Like how she know she abide me
I know you doubt me

But just to keep it trill
I heard about you things
So baby girl let's keep it real.I just wanna lay you down baby
Lay you lay you down baby
Lay you down, lay you lay you down
I just wanna lay you down baby
Lay you lay you down baby
They don't know
Don't listen to what people say
They don't know about, bout you and me
Get it out your mind
'Cause it's jealousy
They don't knowNow girl I know you got me (got me)
You know I got you too (got you too)
Them other women they be bopping you (bopping you)
But girl I'm feeling you, baby
I know you doubt me
Hatin' ass nigga talkin' bout me
Everywhere you go, there's another hoe
Like how she know she abide me
I know you doubt me
But just to keep it trill
I heard about you things
So baby girl let's keep it real.
