When My Stars Come Out

Delta Goodrem

Hey, when you gonna pull the trigger?
i'm up and running like a river
yeah i'm already gone
just, when you think you know who I am
if you think i'm gonna keep on crying
yeah i'm already done
I smile when it's the hardest time to smile
I climb when it's the highest mountain to climb
baby baby when the sun goes down
that's when my stars come out
baby baby when the sun goes down
that's when my stars come out to
shine
hey, should I let you go on lying?
whats the point of me denying?
when i've already won
hey, maybe you should try to remember

your never gonna make me surrender
cause i've already won
I smile when it's the hardest time to smile
I climb when it's the highest mountain to climb
baby baby when the sun goes down
thats when my stars come out
baby baby when the sun goes down
that's when my stars come out to shine
the sun sets, but it aint over yet x3
the sun sets
baby baby when the sun goes down
that's when my stars come out
baby baby when the sun goes down thats when my stars come out
to shine
baby, baby, baby, baby
shine
when the stars come
out thats when my stars come out
