

# In Oceans

## Agraceful

The water is rising above my neck  
The tide it is pulling me farther  
away from everything  
That I have grown to love  
Away from everything that I know  
Pull me back inWith all this I said I know that you're afraid  
But I can't go on unless  
You're next to me  
Take me now (x2)Oh my God the water is getting higher  
I need to breathe  
Oh my God why is this happening to me?  
If this is the end the worst is over  
And all of this is keeping you calm  
It's keeping you safe  
It's keeping you quiet  
And all of this is keeping you calm  
It's keeping you quiet  
It's keeping you safe inside again  
It's keeping you safe inside againWith all this I said I know that you're afraid  
But I can't go on unless  
You're next to me  
Take me now (x2)And all of this is keeping you calm  
It's keeping you safe  
It's keeping you quiet  
And all of this is keeping you calm  
It's keeping you quiet  
It's keeping you (x2)  
Pull me back in  
I fear you are at the end  
Pull me back in  
I fear you have reached the end  
It's keeping you safe inside again  
It's keeping you (x2)  
Awake again my God can we bury this?  
The fear in their heart
