Beasts In the Woods

Spin Doctors

Let me illuminate my interpretation
Which I will try to serve with an illustration
All the beasts in the woods
Bare their fangs and peddle goodsLet us take the diagram, examine it in detail
Some channels they are wholesale, some are retail
You need only attach the tags
To make merchandise of your ragsBlessings and plagues descend upon the land
Where are the gods to protect us?
Think I see a shining handLet us take the masses and use them as our model
The rich and poor in their mansions and their hovels
Will we have the option to thrive?
Will there be a door to survive?
