

# Head Is Not My Home

Ms Mr

The space is not my own  
The head you dwell in  
Is not my home  
Made a vow to cut it out  
Take things slow as we made rules  
To ease our predictable goobyes  
Your heart  
Your heart  
Understood mine Found in forbidden nights  
Sharp as glass and twice as bright  
Ignore the promises we made  
Forgotten now  
We'll never get our way My mouth your lips  
Your hands my hips  
Our time right now  
Will set us free  
And relieve us of our misery Secrets lie in our wake  
Your kiss tastes better outside the light of day  
Gnaw your shoulder scratch your back  
Break my knuckles feel them crack I'll reveal nothing  
We'll both play it fake pretend not to worry  
Our hearts  
Your hearts at stake My mouth your lips  
Your hands my hips  
Our time right now  
Will set us free  
And relieve us of our misery Hard to believe  
You could cause me harm  
This could cause me harm  
Hard to believe
