Chemi-Kill

Exodus

I'm back for more and I got the cure
I know where I'm going for sure
What we threw away, we should've saved
Come and make my dayI said some things
That did not ring true
And I said some things I did not mean to
Now, I'm back for more'Cause I don't wanna lose this feeling
That you're givin' me everytime I need it
Ain't you lookin' for more
I need what you're givin' me more, and moreI don't wanna lose this feelin'
That you're givin' me everytime I need it
Are you lookin' for more
I need what you're givin' me more, and more
Give me more"Why can't we blow?"," Why don't we go?"
With our imperfections, we know
What we threw away, we should've saved
Come and make my dayI said some things
That did not ring true
And I said some things I did not mean
Now I'm back for more'Cause I don't wanna lose this feeling
That you're givin' me everytime I need it
Ain't you lookin' for more
I need what you're givin' me more and moreI don't wanna lose this feelin'
That you're givin' me everytime I need it
Are you lookin' for more
I need what you're givin' me more
Give me moreDon't wanna lose, don't, this feel
Don't, don't wanna lose, don't, this feel
I'm ready, I'm ready, ready, ready, ready'Cause I don't wanna lose this feeling
That you're givin' me everytime I need it
Ain't you lookin' for more
I need what you're givin' me more, and moreI don't wanna lose this feelin'
That you're givin' me everytime I need it
Are you lookin' for more
I need what you're givin' me more
Give me more'Cause I don't wanna lose this feeling
That you're givin' me everytime I need it
Ain't you lookin' for more
I need what you're givin' me more, and moreI don't wanna lose this feelin'

That you're givin' me everytime I need it
Are you lookin' for more
I need what you're givin' me more
Give me more
