I Know the Reason

Mindy Smith

It's been a long, long year
But it's flown on by
There's a story told
Of a miracle kindYou're my miracle
In the midst of it all
You hold me here
If I start to fallAnd I know the reason
Each glowing candle shines
No matter what the season
It's always Christmas time
Knowing that you're mineBaby it's a shame
The whole world doesn't have
Someone like you
Calling out their nameIt's like a church bell ring
It's like a prayer you sing
It's like a dream you dream
It's finally happeningAnd I know the reason
Each glowing candle shines
No matter what the season
It's always Christmas time
Knowing that you're mineSilver snow fills the air
People start to share joy and hope
Peace and love
Shower from aboveAnd I know the reason
Each glowing candle shines
No matter what the season
It's always Christmas time
Knowing that you're mineIt's been a long, long year
It's coming to an end
Looking by my side
You still have my faith
