# Vision Incision

## Lo Fidelity Allstars

Oh, oh, oh, ohI've been shot right out the sky
Navigating miles high
I'm just a ray of sound, yeah, look what I found
On my brand new journey into soundI know you'll find piece of mind
On my punk paste race into space
I'm the silver surfer, hearin' Lucifer
Lay on the ground and nobody diesOh, ohParadise is the place where the devil does his damndest
I'm the catalyst, a psychedelic twist
Like a dynamite reefer, I'll make you sweat and curse
As we travel at magnificent speeds around the universeAs we travel at magnificent speeds
As we travel at magnificent speeds
I'll make you [Incomprehensible]
As we travel at magnificent speeds
As we travel at magnificent speeds
I'll make you [Incomprehensible]As we travel at magnificent speeds
As we travel at magnificent speeds
I'll make you [Incomprehensible]
As we travel at magnificent speeds
As we travel at magnificent speeds
I'll make you [Incomprehensible]As we travel at magnificent speeds
As we travel at magnificent speeds
I'll make you [Incomprehensible]
As we travel at magnificent speeds
As we travel at magnificent speeds
Around the universeI'll keep travelling, chasing the shadows
This ain't a game
We're coming by stealth, you know I got wealth
Brain carnage selfOh, there's no return
There's no return
Oh, there's no return
There's no return
OhSpeeding neck and neck with my own vision
Real clean incision
We'll be dancing frenzies, slaughters visions
I'm a hot wet dripping psychedelic incisionZeroes pure visionOh, ohThis is stranger than fiction, a greater addiction
We'll never wish to never recoverOh, ohI'm a skunk of a different stripe
And tonight, I'm gonna take flight
I'll take you on a journey into tomorrow

And together we'll banish all pain and sorrowOh, there's no return
Oh, there's no return
Oh, there's no return
Oh, there's no returnOh
Oh
OhOh, can't you see?
Oh, can't you see?
Oh, can't you see?I'm just a ray of sound, sound, a ray of sound
Just a ray, a ray, a ray, a ray, a ray of sound
I'm just a ray of sound, sound, a ray of sound
A sound, sound, sound, sound, a ray of soundI'm just a ray of sound, sound, a ray of sound
Just a ray, a ray, a ray, a ray, a ray of sound
I'm just a ray of sound, sound, a ray of sound
A sound, sound, sound, sound, a ray of soundI'm just a ray of sound, sound, a ray of sound
Just a ray, a ray, a ray, a ray, a ray of sound
I'm just a ray of sound, sound, a ray of sound
A sound, sound, sound, sound, a ray of soundOh, can't you see?
