Never Really Ever

Maysa

You ain?t never gonna forget about me (background)
Oooo, oooo, oooo, oooo yeah.

Try to say it?s over.
Don?t lie, you can?t walk away from me (oh my).
Love is like the blue moonlight to the sea ? you?ll always drunk to me.
You can?t resist, you shouldn?t even try (you shouldn?t even try).
I?ve got a hold on you. You can?t hide.
I will always stay on your mind. You know you need it (you?re so addicted).

You will never really ever be over. You can try to walk away, but your heart is here always.
You will never really ever get over ? the life we had and all the love we made.

Whatever her name is ? it?s all right. She will never take the place of me (in your life).
Go on pretend you?ve moved one. I was giving you what?s good and strong.
You can?t resist, shouldn?t even try. I?ve got a hold on you. You can?t hide.
You must admit, you can?t deny (can?t deny) how good my love is. (you?re so addicted).

You will never really ever be over ? the love we had and all the love we made.
You can try to walk away but your heart is here always.
You will never really ever get over ? the life we had and all the love we made.

Can?t you see baby ?
My love?s so strong it can?t be denied
My love?s so deep you can?t really hide
My love?s so good you can?t walk away
My love?s so sweet (so sweet)

Never, never gonna give it up ? never be over
Baby you just can?t stop
You can try to walk away but your heart is here always.
Never gonna give it up, never get over ? baby you just can?t stop
You will never really ever be over
You?re gonna remember the way the I loved you
I was there for you?
For the rest of your life, I will stay on your mind
