Gwarn (feat. Burna Boy)

Juls

?Every girl that want me touch up on her body let me fuck her...?
?Why everytime I let them comeback in the area sir?
Just want to time them now, ?where my money sir?
Baby they don't want no drama
So just wait by the car now
We work hard for the commas
We don't need no dramaSaid every time I see some girl immediately she just want me to leave everything that I do and come and hang with her
She said she love me something because something long something slide up in her touch her belly and then I damage her
The other night she called her friend over and two of them are pressed up on me me up on the middle like a sandwich yeah
She tell me about her man I know im so jealous and I follow and I stalk can I cuff her like an officer
She tell me how she feel
Saying I satisfy her
She need me
Because she want that fire
Come get this good good
Come get this good good love
Come get this good good
Come get this good good love
